Boykin Spaniel Health Statement

The Board of Directors of the Boykin Spaniel Club and Breeders Association of American unanimously approved the following of both Sire and Dam in order to be listed in the AKC Online Breeder Classified Ads:

The BSCBAA Board of Directors specifies the following health tests be completed for a Boykin Spaniel prior to being bred:

1. Eye Examination by a boarded ACVO Ophthalmologist with NORMAL results registered with OFA or CERF.
2. Patellar Luxation - OFA Evaluation
3. Hip Dysplasia - OFA or OVC or PennHip Evaluation at 24 months of age or older with an OFA/PennHIP rating of MILD or better or the PennHIP equivalent.
4. Exercise Induced Collapse (EIC) DNA test through an approved lab.
5. Collie Eye Anomaly (CEA) DNA based test results from an approved lab registered with the OFA.

The results of these screening health tests will be recorded in an online, professionally managed database such as the OFA database (<http://www.offa.org/>).

For more information, see <http://theboykinspanielclub.com/>.

This statement has been approved by the BSCBAA Board of Directors February 22, 2016.
