

The following list of health tests are recommended by the Chow Chow Club Incorporated for the chow chow:

Eye Examination by a board certified ACVO Ophthalmologist. Results can be registered with either the (OFA) Orthopedic Foundation for Animals or (CERF) Canine Eye Registration Foundation.

Elbow Dysplasia x-rays evaluation: Results can be registered with either the (OFA) Orthopedic Foundation for Animals or (OVC) Ontario Veterinary College.

Hip Dysplasia x-ray evaluation: Results can be registered with either the (OFA) Orthopedic Foundation for Animals or (OVC) Ontario Veterinary College. A PennHip Evaluation may also be done.

Autoimmune thyroiditis evaluation: Results registered with the (OFA) Orthopedic Foundation for Animals evaluation from an approved laboratory.

Patellar Luxation evaluation: Results registered with the (OFA) Orthopedic Foundation for Animals.
