

GERMAN SHEPHERD

DOG CLUB OF AMERICA, INC.

Member of American Kennel Club

The health requirements for the German Shepherd Dog, approved by the German Shepherd Dog Club of America Board of Directors, require OFA hips and elbows and the passing of our Temperament Test.

These three requirements are the same as those we have given CHIC at the OFA. Therefore, we are able to track the number of dogs in the CHIC database as one of the measures of how well we are doing in the area of improving the health of the German Shepherd Dog.
