December 8, 2015

The Board of Directors of the Greyhound Club of America at the board meeting of December 8, 2015 voted to amend the list testing listed on the AKC Breeder on line Classified site by removing the Peripheral Degenerative Myelopathy and replace this test with Greyhound Polyneuropathy NDRG1 mutation.

The other two tests will remain:

Ophthalmology Screening for juvenile cataracts and progressive retinal atrophy

Cardiac screening for Cardiac diseases
