

American Wirehaired Pointing Griffon Association

WWW.AWPGA.COM

The board of directors of the American Wirehaired Pointing Griffon Association recommends the following health screens be completed before a dog is bred:

- Eye examination by a board certified ACVO Ophthalmologist after the age of 12 months, results to be registered with CERF or OFA
- Hip dysplasia OFA, OVC or Penn Hip evaluation
- Elbow dysplasia OFA or OVC evaluation
